

CuColours™ Rules For Culica®

Variation - Classic

Mode: 2 to 12 Players

Difficulty: Easy.

Rules

Put 14 pegs of each colour into the bag.

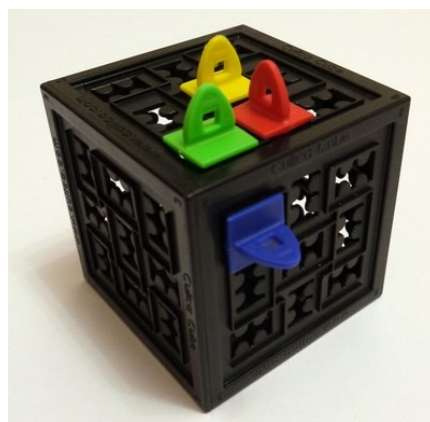

Players take turns.

Pull a peg out of a bag at random and put it on the Culica.

A peg must go next to an existing peg (if there is one), side by side.

No two pegs of the same colour can touch, side by side or diagonally, even over edges.

One peg of each colour must already be on the Culica before anyone can lose. If there isn't and you cannot go, then keep pulling pegs until you can go.

The figure, right, shows a game after six moves.

To win:

- ✓ Be last to move (when no one else can go).

Tip:

For a faster game, put some pegs into the cube (no colours touching) before play.
