

## CuFrog™ Rules For Culica®

Variation - Classic

Mode: 2 to 8+ Players

Difficulty: Easy.

### Rules

Colours don't matter in this game.

First player puts a peg on the Culica cube.

Players take turns.

Each subsequent peg goes on the Culica relative to the previous peg but with a space (or peg) between. You can think of the move as a “hop” over a space or peg.

Hops are straight, not diagonal.

*The figure, right, shows a game after one “hop”.*

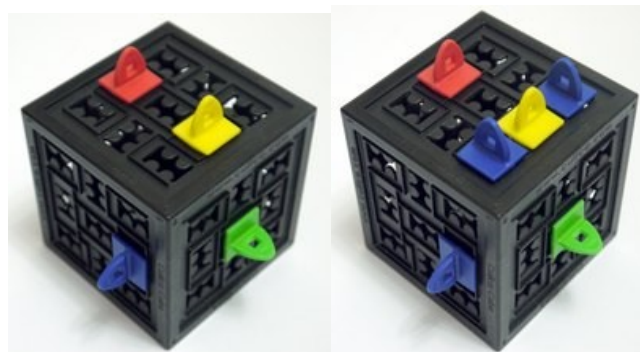

If a player cannot move, they go out.

When a player goes out, then the next player chooses a different peg on the Culica cube at random, and play continues from that peg.

*The figure, right, shows the position after three hops.*

*The figure, far right, shows the position after two more hops (the blue pegs on the top face).*

### Who wins?

The last surviving player.
