

## CuSol™ Solo Rules For Culica®

Variation - Classic

Mode: 1 Player

Difficulty: easy to learn (very hard to solve)

### Rules

Cover the Culica with pegs. Remove one.

You move by taking another peg by hopping over it.

A hop is taking a single peg and landing the other side of it *side-by-side* (not diagonally).

*In the figure, right, a blue peg has hopped over a green peg on the top face (shown in figure top right), and taken it.*

The game ends when you cannot take anything.

### To win:

1. Remove all the pegs but one! (This is probably possible, but I am not sure! - JE 2011)

### Bits and Bobs

CuSol was inspired by the solitaire game played with marbles. Like most Culica games, there is a multiple player version!
